WHO WE ARE

About Dhaka Cleaners

Dhaka Cleaners is a professional cleaning company based in Dhaka, Bangladesh, providing complete cleaning, hygiene and pest-control services for homes, apartments, offices, commercial spaces and institutions.

We were founded to solve a problem thousands of families and businesses in Dhaka know well: finding a cleaning service you can genuinely trust. Too often that meant unverified workers, unclear prices, harsh chemicals and no accountability. We set out to change that.

Today we combine modern machines, eco-friendly products and a carefully trained, background-verified team to deliver a level of clean that everyday routines cannot match. Every team member is NID- and police-verified, arrives in uniform and follows the same professional standard on every visit.

Before any job begins, our clients receive a clear written quotation — no hidden charges, no last-minute additions. And every job is backed by our **100% satisfaction guarantee**: if any part of the work does not meet expectations, we re-clean it free of charge.
